Re: Concealed Sprinkler Box Quantity Changes

Effective April 23rd, 2021 all Tyco Concealed Sprinkler products identified in the table below that are shipped from the Lubbock, TX manufacturing facility will be provided in box quantities of forty (40) sprinklers. This change is being made to reduce the box weight.

The sprinkler quantity per pallet for each product will remain unchanged. A typical full pallet will now include 24 boxes of 40 sprinklers each rather than the previous 12 boxes of 80 sprinklers each. Pallet height will increase by ½” (2.5 cm) and the weight will increase by about 4 lb (1.8 kg) per pallet.

Product Name	SIN	Part Numbers	Box Quantity
RFII	TY3531, TY3551	517921155 517901155 517921200 517901200	40
