

January 9, 2008

To Our Valued Customers:

Tyco Fire & Building Products strives to produce the highest quality products that reduce your total installed cost. We have been working aggressively to minimize the overall cost impact to our product lines at a time of ever increasing supply chain turbulence. With the recent significant cost increases from our vendors in oil, freight, health care, and raw materials, we unfortunately need to adjust list prices. Effective March 18, 2008, Tyco Fire & Building Products will increase the current List Prices for many of the products manufactured and / or distributed by TF&BP.

- Sprinklers, Sprinkler Accessories, Valves, and related manufactured products will increase approximately 4.0% to 6.0%.

The price increase will be effective for orders placed on or after March 18, 2008. A copy of the new list price will be available on our website at [www.tyco-fire.com](http://www.tyco-fire.com) by February 18, 2008. Copies of your current and future net prices can be sent to you electronically to facilitate updating your files by your local sales representative.

Tyco Fire & Building Products is committed to providing the best and most complete line of fire protection products in the industry to you. We appreciate and thank you for your continued support, and we look forward to being of service to you in the future.

Sincerely,

Jim Smyrl  
Vice President of Sales  
Fire Protection Products
