## Johnson Controls announces Rapid Response LFII Residential 4.9 K-factor Pendent Sprinkler Improvement

The previously announced modification of the Tyco Rapid Response LFII Residential 4.9K pendent sprinkler (TY2234) is complete. This update offers improved sprinkler adjustment and allows the sprinkler to be used with either the Tyco Style 15 escutcheon (5/8" adjustment) or the Style 20 escutcheon (1/2" adjustment).

As a result, new SIN and part numbers are to be used for product identification. Product performance will remain the same – there are no changes to the flows, pressures or any other performance criteria. A few key highlights to be aware of during this transition are listed below.

### SIN & Part Number Change Details

TY2234		TY2236
155°F (68°C) Natural Brass.....51-201-1-155 Pure White.....51-201-3-155 Signal White.....51-201-4-155 Chrome Plated....51-201-9-155	→	155°F (68°C) Natural Brass.....51-212-1-155 Pure White.....51-212-3-155 Signal White.....51-212-4-155 Chrome Plated....51-212-9-155
175°F (79°C) Natural Brass.....51-201-1-175 Pure White.....51-201-3-175 Signal White.....51-201-4-175 Chrome Plated....51-201-9-175	→	175°F (79°C) Natural Brass.....51-212-1-175 Pure White.....51-212-3-175 Signal White.....51-212-4-175 Chrome Plated....51-212-9-175

### Transition Information

- Discontinue use of the TY2234 part numbers
- Use TY2236 part numbers on all new orders
- The TY2236 is a direct replacement in application for the TY2234. A technical services letter is available upon request should it be needed to present to an Authority Having Jurisdiction (AHJ).

We appreciate your continued support as we work to continually improve our product offering. Please contact your local Johnson Controls sales or customer service representative if you have any questions.

Sincerely,

Hilary Reese
