**Tyco Fire Protection Products will implement a global price increase of 5%-7% on Sprinkler Heads & Nozzles effective June 19<sup>th</sup>, 2017.**

Dear Valued Customer,

Due to continued and sustained inflationary cost pressures, particularly increasing raw material costs, Tyco will be implementing a global price increase to our range of sprinkler products. This increase will take effect June 19<sup>th</sup>, 2017.

Pricing changes will be implemented as follows:

- All orders placed prior to June 19<sup>th</sup>, 2017 will be processed at current price levels.
- All orders placed at current price levels must be scheduled for shipment and delivered before July 19<sup>th</sup>, 2017 unless otherwise agreed in writing.
- Acceptance of orders at current price levels will be subject to material availability.
- All orders placed on or after June 19<sup>th</sup>, 2017 will be processed at new price levels.

Thank you for your continued support.

If you have any questions, please contact your Tyco representative.

Sincerely,

A handwritten signature in blue ink, appearing to read "Laurens Swennenhuis".

Laurens Swennenhuis, Vice President Global Sales
